FOUR CONSOLES,
FOUR MEANINGS.

ONE JOURNEY.

It all started with a memory.
Over lunch, the lady told me about a game
from her childhood she could no longer name.

I found it.
It was Karian Cross.

One forgotten game became an idea.
A weird idea that became four consoles.

THIS IS

ONE MEANINGFUL GAME

REMEMBER

A person. A place.
A feeling.

Remembering is not about
living in the past. It is about
knowing where we came from.

Because everything we've been through
gives us the strength
to move forward.

KARIAN CROSS

MAGICAL DROP III

DISCOVER

A new idea. A new place.
Something unexpected.

Discovering means
staying curious. And curiosity
changes how we see the world.

Curiously, getting lost
is how we find something
we didn't know we were looking for.

ENJOY

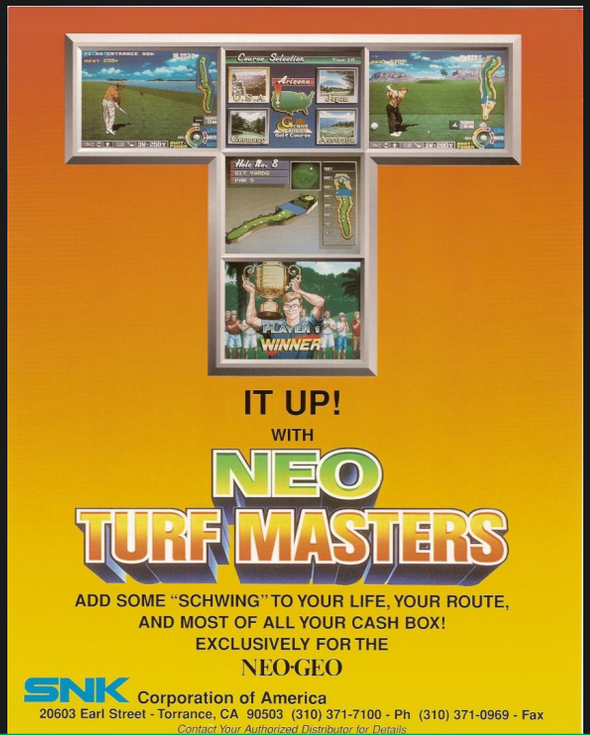

A moment. A smile.
Something that feels good.

We can enjoy getting somewhere.
But it's about being present
while we are getting there.

If the purpose is the journey,
there's no reason not to enjoy it.

PUZZLE BOBBLE

MAGICAL DROP

4/4

MASTER

A challenge. A mistake.
Another attempt.

Mastering is not about
being perfect. It is about learning,
practicing, getting better.

Because the only way to win a run
is one step after another one.

HOW IT WORKS

Power it on.
You get your
One Meaningful Game.

Turn it off, turn it on.
You get to play along the way.

Switch it off and on again.
You get back to your
One Meaningful Game.

THE CYCLE HAS BEGUN.
GO AHEAD, AND...

SWITCH IT ON!

A GAMING MEDITATION
